Dear Paul,

Harold has asked me to write you again to request additional copies of documents, clear as possible, please, for reporduction in the appendix. We have gone all through his files and those items are either missing or lost. What he is missing are: The SS report on Rudkins dealing with the rumor of LHO as agent; the whole Oswald notebook thing inc. the original ommission in the FBI transcription of Hosty name and address, the correspondence between FBI and WC on this, plus the final furnishing of this info, and the actual page from the notebook . In addition, Harold has bad copies of other documents, and if you have good copies, he'd appreciate clear Xeroxes, again for reproduction. These are: Memo for Record by Willens, 2/12/64 re LHO as agent rumor; Stern to Rankin, 2/10/64 re FBI and SS.

If you have and can get copies to Harold as soon as possible, it would really be helpful.

Thanks,

Howard

NOTE TO HAROLD: Reference to Hosty entry in LHO notebook in O in N.O. is at pp. 31-2
